Overview

Introducing the iframe

Adding the iframe to our site

Introducing the iframe

Embed external content on a page

  – "Real" page within hosting page

Possible security concern

Using an iframe

```
<iframe src="https://www.pluralsight.com"></iframe>
```

Other Properties

```html
<iframe src="https://www.pluralsight.com"
     width="300" height="200"
     style="border:none;"></iframe>
```

Security around the iframe

```
<iframe src="https://www.pluralsight.com"
    sandbox></iframe>

<iframe src="https://www.pluralsight.com"
    sandbox="allow-forms"></iframe>
```

Demo

Adding the iframe to our site

Summary

iframe allows adding external content to any site easily

Possible security risk
